PREFACE

The Washington State Data Book presents a variety of information on Washington, its people, economy and government in one reference document.

The Data Book comprises 11 major chapters: Population, Economy, State Government Finance, Human Services, Criminal Justice, Education, Natural Resources, Environment, Energy, Transportation and Local Government. These sections represent the types of information most frequently requested by users.

The information is obtained from state and federal agencies as well as private business. It would be impossible to compile and publish the Data Book without the cooperation of these contributing agencies. We thank them and their research staff members. Agency names, addresses, general information and telephone numbers are listed in Contributing Agencies at http://www.ofm.wa.gov/databook/contributing.asp.

Every effort is made to ensure the accuracy of the data presented in the Data Book. Because the Data Book is published every two years, much of the material is subject to updates, and these data might not be the most recent official agency information.

[1]Total mental health state facilities includes: Eastern State Hospital, Western State Hospital and Child Study and Treatment Center. Beginning January 2008, the mental health state facilities count no longer includes the Program for Assisted Living Skills as it became funded by community dollars, and was subsequently closed February 2011.
[2]End of fiscal year actual June counts from the Average Daily Census.
[3]Prior to July 2015: Average LOS (ALOS) was reported. From July 2015 forward: Median length of stay is reported per the BHA new data standard. It includes all patients in residence (IR) at midnight on last day of the month. LOS is calculated from day of the admission to last day of the month, excluding non-IR days. Median LOS is the mid point meaning half of the patients have a longer LOS and the other half, a shorter LOS.
[4]Prior to July 2015: Average daily population (ADP) is based on a count of those individuals who are either in residence or on authorized leave (for 7 days or less) at midnight. Beginning in July 2015: ADP counts all patients on active admissions: those in residence (IR/IT) and those who are assigned a bed including status codes: Authorized Leave up to 3 days (AL), Unauthorized Leave up to 3 days (UL) and Medical Discharge (MD) codes.
[5]Competency Restoration Sites became operational in March and April 2016, and currently include Maple Lane and Yakima locations.

[6]All admissions are counted as new admissions unless the difference between the discharge date of one restoration stay and the admission date of a new restoration stay is one day or less (in which case a continuous episode was created).
[7]All bed days utilized at the RTFs are counted as in-residence days in the daily census/population calculations.
[8]Data reporting by DSHS discontinued when Community Mental Health programs moved to Health Care Authority, effective July 1, 2018.
[9]Expenditures for voluntary, involuntary, children's programs, Community Mental Health Centers and residential programs.
[10]Facilities count reflects total MH Distinct Agencies enrolled in P1. The increased number of community outpatient mental health facilities in State Fiscal Year 2010-11 is due in part to both funding shifts and legislation. This has led to a number of organizations requesting certification to provide mental health treatment in addition to their chemical dependency treatment programs, and also to provide that treatment based on a closer alignment to best practices and fidelity models of treatment. A number of these certifications were issued to agencies in King County, which in several cases was the result of larger providers entering into subcontracts with multiple smaller providers.
[11]Counts of clients served in community outpatient mental health programs during State Fiscal Years 2011 t0 2016 may be subject to change in future report iterations, due to reporting lags and data corrections. Per the Mental Health Division's Performance Indicators, data since State Fiscal Year 2002 excludes stabilization services and mental health residential services. Reporting of these excluded services varies across the state. The count of clients served in community outpatient mental health programs during State Fiscal Year 2019 is based on accepted claim records in ProviderOne, containing (a) ICD-10 diagnosis codes for behavioral health conditions, and (b) CPT/HCPCS procedure codes subsumed under SERI categories. This approach was adopted due to inconsistencies seen in BHDS source data in State Managed Care Organizations previously not included in the BHDS were noted for the State Fiscal Year 2019 service period, resulting in a significant increase in the overall count of persons served in community outpatient mental health programs. This number may be subject to change in future report iterations due to reporting lags and data corrections in the source data.

[2]New HIV cases per year. "Incident cases" refers to the number of people newly diagnosed with HIV in Washington state in a given year. As a change from the methodology of previous years, a person who self-reports a positive HIV test six months before the earliest evidence of his/her positive HIV status in is not considered a new diagnosis in Washington state. Such people are likely to have been previously diagnosed in other states or counties.

[7]Infection with the hepatitis B virus is considered chronic when clinical and laboratory evidence suggest infection occurred more than six months prior to reporting to public health authorities.
[8]Infection with the hepatitis C virus is considered to be chronic when clinical and laboratory evidence suggest infection occurred more than six months prior to reporting to public health authorities.
[9]Calendar year of case reporting is based on the date of diagnosis whenever available - otherwise it is based on the date public health authorities first were notified of the case, created a new case report, or completed case reporting. Includes cases classified as confirmed or probable based on available laboratory data and established classification criteria. Chronic hepatitis B data for 2013-2014 are incomplete.

[1]King County Superior Court case information and activity reported in the published caseload reports may be temporarily incomplete as of November 13, 2018. The court has transitioned to a locally implemented and maintained case management system. For further information, please consult their portal located at: https://dja-prd-ecexap1.kingcounty.gov/?q=Home or contact the King County Clerk's Office by email at: DJA.CustomerServiceEmail@kingcounty.gov.

[2]Commencing with caseload reporting for July 2013: (a) the Civil Protection Orders category includes the following causes of action: Unlawful Harassment (HAR), Sexual Assault Protection (SXP), and Stalking Protection Orders (STK); (b) the Domestic Violence category includes the following causes of action: Domestic Violence Protection (DVP), Vulnerable Adult Protection (VAP), and Foreign Protection Orders (FPO).

[3]Includes burglary data.

[4]Pursuant to Chapter 53 Laws of 2003 (SB 5758 - effective July 1, 2004), technical (non-substantive) revisions were made to the criminal statutes of Washington state. In conjunction with this recodification, statistical categorization of criminal cases was revised. Charges based on statutes that cite both felony and misdemeanor category charging options were previously categorized as felonies. Beginning with January 2004 figures, these are categorized for statistical purposes as gross misdemeanors/misdemeanors.

[5]A non-charge case is one opened for which no formal charges have been filed, such as for conducting one or more preliminary appearances prior to the filing of an information. If an information is subsequently filed, the case is counted as a criminal case as of the date the information is filed.

[6]Data and/or categories revised. Historical data may not be available or comparable.

[7]Data include counts on "non-charge matters."

[1]Encompasses a mixture of federal, state, county and private property in Island County. There are two state parks and the town of Coupeville within the reserve. Ebey's Landing is a unit of the National Park Service but does not report visitation. One of the requirements of reporting visitation is that you can only report visitors that enter the lands directly administered by the NPS and all their land is jointly administered by different partnerships.

[2]Formerly Coulee Dam National Recreational Area.

[3]Nez Perce NHP consists of 38 sites in Idaho, Montana, Oregon and Washington. The sites are a mixture of federal, local and private property. See the internet for the sites by state. Visitor information for entire NHP.

[1]Count of Annual Reports required from active sites. Inactive site's dangerous waste activities have ended or dropped below regulated amounts.

[2]Treatment, Storage and Disposal (TSDs) and Recycling (Rs) Facilities receive and manage regulated wastes.

[3]Recurrent waste is from normal processes or hazardous waster residuals from treating or managing a previous waste.

[4]Non-recurrent waste is from demolition, spills, clean-up or was received from off-site and sent off-site again without treatment.

[5]All reported hazardous waste generated. Recurrent and non-recurrent categories are not separated.

[6]Permit by Rule (PBR) is the discharge of wastewater to a local wastewater utility under a specific permit.

[7]Treatment-by-Generator (TBG) is treating waste on site. Some wastes are counted as both PBR and TBG.

[8]The US Department of Energy Hanford, in Benton County, identifies as a service industry by its North American Industry Classification System (NAICS) code.

[9]Industry Groups in the U.S. Census NAICS were updated in 2017.

[10]Generators that manage some of their own regulated wastes at their own site. Includes PBR and TBG wastes.

Note: Totals may not add due to rounding and possible counting across multiple categories.

[1]Issued by local governments for development costing $7,047 or more. Dollar threshold changed every five years.

[2]Issued to avoid unnecessary hardship created by unique site circumstances if local regulations were strictly enforced.

[3]Issued with special conditions to allow projects not normally permitted in a given environment (urban, rural, etc.)

Note: State and local governments regulate over 28,000 shoreline miles using the Shoreline Management Act of 1971.

[1]British Thermal Unit (BTU): The quantity of heat required to raise the temperature of one pound of water by one degree Fahrenheit. 1 therm = 100,000 BTU.

[2]Hydroelectric and Renewables are direct conversion from Megawatt-hours to BTU.

[3]Note that much of the electricity in Washington by hydropower, nuclear and renewable resources is sold out-of-state.

GENERAL COUNTY INFORMATION

General Population: Office of Financial Management; Internet Homepage: http://www.ofm.wa.gov/

Land Area: U.S. Dept. of Commerce, Census Bureau, Census 2010; Internet Homepage: http://www.census.gov/

Assessed Value: Department of Revenue; Internet Homepage: http://www.dor.wa.gov/

Personal Income: Economic and Revenue Forecast Council; Internet Homepage: http://www.erfc.wa.gov/.

The Washington total shown here matches the sum of the counties. 2018 is the most recent year available at the county level. The state data may have been revised since the county data were released. As a result, the data shown in this section may not match Table CT01. Per Capita Income was calculated using U.S. Census Bureau population estimates.

POPULATION AS OF APRIL 1, 2019

Population Components of Change:
Office of Financial Management; Internet Homepage: http://www.ofm.wa.gov/
Department of Health; Internet Homepage: http://www.doh.wa.gov/

Marriages/Divorces: Department of Health; Internet Homepage: http://www.doh.wa.gov/

Marriages are tabulated by county where license was issued. Divorces are tabulated by county of decree. Marriage and divorce data are occurrence data, not residence data.

Exceptionally high marriage rates by county of occurrence may reflect unique local circumstances, such as highly desirable locations for weddings.

Exceptionally high divorce rates may reflect unique local circumstances, such as administrative procedures, that make divorces for non-county residents easy.

Population of Cities and Towns: Office of Financial Management;

Internet Homepage: http://www.ofm.wa.gov/

[&]City population numbers are from either special census (*), informal census (#), informal count (+), or state estimate (no symbol).
