50.10.10 What are annual U.S. information returns?

July 1, 2012

In the course of state business activities, agencies make payments to others that must be reported to the federal government. Copies of information returns must be furnished to recipients for payments reported.

For payroll related payments, Internal Revenue Service (IRS) Forms W-2 are required to be transmitted to the Social Security Administration (SSA) accompanied by a Form W-3, Transmittal of Wage and Tax Statements. Payroll systems that send W-2 information to the SSA electronically use IRS Form 6559, Transmitter Report and Summary of Magnetic Media.

For non-payroll related payments, the most common annual information returns include Forms 1098 (1098, 1098-E, and 1098-T), Forms 1099 (1099-G, 1099-INT, 1099-MISC, 1099-Q, 1099-R, and 1099-S) and Form W-2G. These forms are transmitted to IRS with Form 1096, Annual Summary and Transmittal of U.S. Information Returns.

Non-payroll U.S. source income paid to foreign persons must be reported to the payee and IRS on IRS Form 1042-S, Foreign Person's U.S. Source Income Subject to Withholding.

50.10.20 The purpose of these guidelines

June 1, 2012

To ensure federal reporting compliance, agencies are to obtain current publications and advice from the IRS and the SSA as needed. Section 50.10 is provided for general informational purposes only, to alert agencies about compliance issues related to various reporting requirements of the IRS and SSA for annual U.S. Information Returns.

The Office of Financial Management does not provide tax advice. Agencies can obtain tax advice from the IRS, SSA, Office of the Attorney General, and/or outside tax counsel (paid for by the agency seeking tax advice).

50.10.30 Key timeframes and publications

June 1, 2016

50.10.30.a

Annual information returns report payments for the calendar year and are generally to be mailed to recipients on or before January 31 of the ensuing year (except for Form 1042-S, due to recipients on or before March 15).

Due dates for filing with the federal government vary:

- Forms W-2 are due to the SSA on or before January 31.
- Forms 1099-MISC are due to the IRS on or before January 31, when nonemployee compensation is reported in Box 7. Otherwise, paper forms are due to the IRS by February 28 or, if filed electronically, by March 31.
- Forms 1042 are due to the IRS by March 15.

When 250 or more information returns are prepared by an agency, the IRS requires electronic filing. This requirement applies separately for each type of form.

50.10.30.b

The IRS publication, General Instructions for Certain Information Returns, provides specific instructions on the filing requirements of these returns. This publication contains a Guide to Information Returns. This guide is a helpful quick reference for form numbers, titles, what to report, amounts to report, and due dates to the IRS and the recipient. The instructions are available on the IRS website at: <http://www.irs.gov/instructions/>.

Additional publications are available on the IRS website at: <https://apps.irs.gov/app/picklist/list/formsPublications.html>

50.10.30.c

SSA Publication EFW2 provides specifications for Form W-2. IRS Publication 1220 provides specifications for electronically or magnetically filing Forms 1098, 1099, and W-2G.

For information on all SSA Form W-2 filing methods, forms, publications and other information, refer to the SSA website at: <http://www.socialsecurity.gov/employer/pub.htm>.

50.10.40 Taxpayer Information Numbers (TINs) are required

Jan. 1, 2019

50.10.40.a Required reporting

The Taxpayer Information Number (TIN), name, and address of the recipient are required to be entered on the annual information forms for identification of U.S. payees. TINs include the Social Security Number (SSN) issued by the Social Security Administration (SSA), the Individual Taxpayer Identification Number (ITIN) issued by the Internal Revenue Service (IRS), or an Employer Identification Number (EIN) issued by the IRS.

For payroll reporting, the SSN is required. A Form W-4, Employee's Withholding Allowance Certificate is required to be completed and signed by an employee to obtain SSN information.

For non-payroll reporting for a U.S. individual or business, the TIN may be a SSN, ITIN, or EIN. The payee's TIN and business information can be documented using a properly completed IRS Form W-9, Request for Taxpayer Identification Number and Certification (or an acceptable substitute).

For non-payroll reporting for a foreign individual or business, the appropriate IRS forms include:

- Form W-8BEN, Certificate of Foreign Status of Beneficial Owner for United States Tax Withholding
- Form W-8ECI, Certificate of Foreign Person's Claim That Income Is Effectively Connected With the Conduct of a Trade or Business in the United States

State Administrative and Accounting Manual

- Form W-8EXP, Certificate of Foreign Government of Other Foreign Organization for United State Tax Withholding
- Form W-8IMY, Certificate of Foreign Intermediary, Foreign Flow-Through Entity, or Certain U.S. Branches for United States Tax Withholding
- Form W-8CE, Notice of Expatriation and Waiver of Treaty Benefits
- Form 8233, Exemption From Withholding on Compensation for Independent (and Certain Dependent) Personal Services of a Nonresident Alien Individual

50.10.40.b IRS penalties

Failure to report a TIN or correct TIN may result in penalties assessed by IRS. Refer to the IRS General Instructions for Forms W-2 and W-3 regarding Form W-2 penalties.

For incorrect or missing TIN reporting penalties for other information returns, refer to the IRS General Instructions for Certain Information Returns.

50.10.40.c SSA SSN verification and IRS TIN matching programs

The Social Security Number Verification Service (SSNVS) is to be used only for verifying social security numbers (SSNs) related to payroll transactions. Payroll systems routinely use this service. The Social Security Administration (SSA) website includes an overview and the steps to register for the SSNVS at: <http://www.ssa.gov/employer/ssnv.htm>.

IRS Taxpayer Identification Number (TIN) matching is to be used for verifying TINs, including SSNs, related to non-payroll transactions. An overview of TIN matching is available on the IRS website at: <https://www.irs.gov/government-entities/indian-tribal-governments/taxpayer-identification-number-tin-online-matching>. To register for TIN matching, go to the IRS website at: <https://www.irs.gov/e-services>

In addition to verifying TINs when setting up statewide vendors, the Office of Financial Management (OFM) conducts bulk verifications at certain times of the year. Agencies that process non-payroll payments outside of AFRS should conduct IRS TIN matching.

50.10.40.d When backup withholding is required

Backup withholding is a type of federal income tax *required* to be deducted from certain non-employee transactions under various circumstances, including when the payee fails to furnish a TIN number or provides an incorrect TIN number and will not correct it on a timely basis.

IRS Publication 1281, Backup Withholding For Missing and Incorrect Name/TIN(s) explains the requirements, IRS TIN match/mismatch process, and penalties that can be assessed.

If an agency encounters a situation where deduction of backup withholding is required, timely deposit to IRS of the federal income tax and annual reporting on IRS Form 945 are also required. These tax deposits may not be co-mingled with payroll tax deposits reported on quarterly Forms 941. For information on how to deposit taxes via the Electronic Funds Tax Payments System, refer to the Office of the State Treasurer's website at: <https://www.tre.wa.gov/partners/for-state-agencies/cash-management/eftps-instructions/>

Generally, payments made to tax-exempt organizations, such as other governmental agencies, social service agencies, and hospitals, are exempt from informational reporting requirements.

Reporting is required for most payments to individuals and partnerships. It is important to know whether the recipient of the payment is doing business as an individual, partnership, corporation, its specific business structure if it is a limited liability entity, and whether it is tax-exempt so that correct reporting can be completed.

Questions can be directed to IRS either by telephone or email per contact information provided in IRS publications. It is important that documentation of IRS advice be retained. If the response is by telephone, document the name and badge number of the person providing the advice in case questions arise at a later date.

50.20.10 The purpose of these policies

Jan. 1, 2015

This section addresses billed and allocated central service cost recoveries related to federal assistance awards administered by state agencies. It also establishes state accounting and reporting policies regarding indirect cost recoveries in interagency situations.

50.20.20 Authority for these policies

Jan. 1, 2015

This section is issued, as revised, pursuant to the authority granted to the Director of Financial Management to “... adopt and periodically update an accounting procedures manual” [[RCW 43.88.160 \(1\)](#)]

50.20.30 Applicability

Jan. 1, 2015

This part is applicable and binding on all agencies of the state of Washington administering or expending [federal assistance](#), unless otherwise exempted by federal law or appropriate federal authority, and on all agencies involved in interagency situations. The Budget and Accounting Act ([RCW 43.88.020](#)) defines the term “Agency” to mean “Every state office, officer, each institution, whether educational, correctional, or other, and every department, division, board, and commission, except as otherwise provided...”

Agencies may request a waiver from complying with specific requirements of this chapter. Refer to [Subsection 1.10.40](#) for information on how to request a waiver.

50.20.50 About federal costs and cost allocation principles

Jan. 1, 2015

The United States Office of Management and Budget (OMB) has established uniform principles for determining the allowability of costs incurred by nonfederal entities expending federal awards. In addition, these principles provide requirements for the development and submission of cost allocation plans and indirect rate cost proposals. Many state agencies perform functions and activities that are associated with federal assistance programs or provide central service support to federal assistance programs. As such, they are subject to provisions of the cost principles applicable to their activities.

Over the years, the federal OMB issued several circulars related to cost allocation for different types of federal assistance recipients. In 2013, the OMB issued the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards ([Uniform Guidance](#)) to clarify and streamline all existing federal guidance. Effective December 26, 2014, the Uniform Guidance became the authoritative set of rules and requirements for Federal awards that consolidates and supersedes guidance from earlier OMB circulars.

The Uniform Guidance establishes principles and standards related to cost allocation and indirect costs:

1. Indirect (F&A) cost identification and assignment, and rate determination for institutions of higher education;
2. Indirect (F&A) cost identification and assignment, and rate determination for nonprofit organizations;
3. State/local government and Indian tribe-wide central service cost allocation plans;
4. Public assistance cost allocation plans; and
5. State and local government and Indian tribe indirect cost proposals.

50.20.60 Washington's Statewide Central Services Cost Allocation Plan (SWCAP) is used to identify and assign central service costs

Jan. 1, 2015

Most governmental units provide certain services such as legal services, information technology services, and motor transportation to operating agencies on a centralized basis. Since federally supported awards are performed within the individual operating agencies, a process is necessary to identify these central service costs and assign them to benefited activities on a reasonable and consistent basis. The federally reviewed and approved, statewide central service cost allocation plan provides that process.

Two basic methods are used in the plan to assign appropriate costs of centralized services to operating agencies or their programs:

- **Billed Central Services** where allowable costs are billed to benefited agencies and/or programs on an individual fee for service or similar basis. Self-insurance and fringe benefit activities that bill customers for services or benefits provided are also considered central service activities.
- **Allocated Central Services** where services that benefit operating agencies and/or programs are not billed on a fee for service or similar basis but allowable costs are allocated to benefited agencies on some reasonable basis.

50.20.62 Responsibilities of the Office of Financial Management

Jan. 1, 2015

The Accounting Division of OFM is responsible to prepare, submit, and negotiate the annual statewide central services cost allocation plan (SWCAP). One part of the SWCAP justifies and reconciles the activities of the billed state central services (internal service, self-insurance and fringe benefit). A second part allocates the allowable costs of other state central services benefiting agencies expending federal awards.

50.20.65 Responsibilities of central, billed internal service activities

Jan. 1, 2015

State of Washington central, billed internal service activities have the following responsibilities:

1. Understand and adhere to the requirements of the Uniform Guidance.
2. Ensure that the following information is made available for inclusion in the state plan:
 - A current narrative description of the service;
 - A balance sheet;

State Administrative and Accounting Manual

- A statement of revenue and expense with revenues broken out by source, e.g., regular billings, interest earned, etc.;
- A listing of all non-operating transfers into and out of the account;
- A description of the procedures (methodology) used to charge service costs to users including how billing rates are determined;
- A schedule of current rates; and
- A schedule comparing total revenues (including imputed revenues) generated by the service to the allowable costs of the service with an explanation of how variances will be handled. Revenues must include all revenues generated. If some users were not billed or not billed the full rate for the service, a schedule showing the full imputed revenues associated with these users must be provided. Expenses must be broken out by object categories.

50.20.70 Responsibilities of central, self-insurance fund activities

Jan. 1, 2015

State of Washington central, self-insurance fund activities have the following responsibilities:

1. Understand and adhere to the requirements of the Uniform Guidance.
2. Ensure that the following information is made available for inclusion in the state central services plan:
 - A balance sheet;
 - A statement of revenue and expense including a summary of summary of billings and claims paid by;
 - A listing of all non-operating transfers into and out of the account;
 - A narrative description of the types of risks covered;

 - A description of the procedures used to charge or allocate contributions to benefited activities; and
 - An identification and explanation of reserve levels maintained in excess of claims [1] submitted and adjudicated but not paid, [2] submitted but not adjudicated, and [3] incurred but not submitted.

50.20.75 Responsibilities of central, fringe benefits activities

Jan. 1, 2015

State of Washington central, fringe benefits activities, including pension and post-retirement health insurance plans, have the following responsibilities:

1. Understand and adhere to the requirements of the Uniform Guidance.
2. Ensure that the following information is made available for inclusion in the state central services plan:
 - Description of fringe benefits provided to covered employees and the overall annual cost of each type of benefit;
 - Current fringe benefit policies;
 - Procedures used to charge or allocate the costs of benefits to benefited activities; and

50.20.80 Responsibilities of agencies administering or expending federal awards

Jan. 1, 2015

State of Washington agencies that administer or expend federal awards are responsible to:

1. Comply with the applicable Uniform Guidance related to charging or allocating agency indirect costs.
2. Unless prohibited by federal or state laws or regulations or formal funding limitations, include the fixed cost allocation from the approved SWCAP in their agency indirect cost/cost allocation pool.
3. Any indirect costs or cost allocation amounts recovered, as a result of a SWCAP cost allocation amount being included in an agency's indirect rate or cost allocation plan, are to be deposited as a recovery in the state General Fund (Account 001) utilizing Revenue Source code 0448.

50.20.85 Indirect costs in interagency situations

June 1, 2022

[RCW 39.34.130](#) states that: "...the full costs of a state agency incurred in providing services or furnishing materials to or for another agency under [Chapter 39.34](#) RCW or any other statute shall be charged to the

State Administrative and Accounting Manual

agency contracting for such services or materials and shall be repaid and credited to the fund or appropriation against which the expenditure originally was charged.” For these purposes, full costs generally include direct and indirect costs.

The nature of interagency activity varies greatly ranging from providing a service or product with established indirect costs components to the simple sharing of usage, and/or rental, costs for a common piece of equipment. As such, parties to interagency agreements should include specific language in the text of their agreements to determine and define allowable indirect costs.

This part is applicable and binding on all agencies of the state of Washington administering or expending [federal assistance](#), unless otherwise exempted by federal law or appropriate federal authority. The Budget and Accounting Act ([RCW 43.88.020](#)) defines the term “Agency” to mean “Every state office, officer, each institution, whether educational, correctional, or other, and every department, division, board, and commission, except as otherwise provided...”

Agencies may request a waiver from complying with the state accounting or reporting requirements of this chapter. Refer to [Subsection 1.10.40](#) for information on how to request a waiver.

50.30.25 About the Single Audit Act requirements

June 1, 2022

In 1984, Congress passed the Single Audit Act, which required most governmental recipients of federal assistance (e.g., state and local governments) to have organization-wide [financial](#) and [compliance audits](#) on an annual basis.

Under the provisions of the Single Audit Act, as amended, the state of Washington has opted to obtain a statewide Single Audit to meet the basic federal audit requirements for all federal assistance awards administered or expended by [agencies](#) of the State.

Over the years, the federal Office of Management and Budget (OMB) issued several circulars to clarify administrative and audit requirements for various types of federal assistance recipients.

In 2013, the OMB issued the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards ([Uniform Guidance](#)) to clarify and streamline all existing federal guidance. **Effective December 26, 2014**, the Uniform Guidance became the authoritative set of rules and requirements for Federal awards that consolidates and supersedes guidance from earlier OMB circulars.

The Uniform Guidance contains major audit policy changes and audit requirements that target the risk of waste, fraud and abuse. The dollar threshold for the requirement of a Single Audit was increased to \$750,000 or more in expenditures in an entity’s fiscal year.

50.30.35 Responsibilities of the Office of Financial Management

Jan. 1, 2015

1. Prescribe statewide policies and procedures for accounting for and reporting federal assistance that meet the federal requirements.
2. Act as the auditee for the statewide Single Audit of Washington.
3. Collect the necessary information and prepare the annual Schedule of Expenditures of Federal Awards.
4. Work with the Office of the State Auditor to prepare the statewide Data Collection Form and submit it and the statewide reporting package to the federal audit clearinghouse.
5. Work with the Office of State Auditor to ensure that Single Audit requirements are met, particularly the inclusion of the Auditor's reports in the Reporting Package.
6. Prepare and publish the annual State of Washington Single Audit Report.
7. Maintain a system for tracking findings to provide information on the resolution of all findings contained in audits of state agencies and institutions.
8. Follow-up on audit findings, including compiling the Corrective Action Plan and Summary Schedule of Prior Audit Findings sections.

50.30.40 Responsibilities of the Office of the State Auditor

June 1, 2022

1. Conduct an annual statewide Single Audit in accordance with *Generally Accepted Governmental Auditing Standards*.

 - Internal control;
 - Compliance with laws, regulations and provisions of contract and grant agreements; and
 - Audit follow-up on prior audit findings.
3. Identify major federal programs by establishing dollar thresholds to distinguish between Type A and Type B federal programs per section 200.518 of the Uniform Guidance and performing risk assessment of federal programs as required.
4. Complete and sign applicable sections of Data Collection Form.
5. Prepare and submit the auditor's reports.

50.30.45 Responsibilities of state agencies administering or expending federal awards

Jan. 1, 2015

1. Develop internal policies in accordance with federal requirements.
2. Establish and maintain effective internal controls over federal awards in accordance with guidance in “Standards for Internal Controls in the Federal Government” issued by the Comptroller General of the United States and the “internal control integrated framework” issued by Committee of Sponsoring Organizations of the Treadway Commission (COSO). Refer to [Chapter 20](#) for additional information on internal controls.
3. Evaluate and monitor compliance with federal statutes, regulations, and the terms and conditions of the federal awards.
4. Take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings.
5. Take reasonable measures to safeguard protected personally identifiable information and other sensitive information consistent with applicable federal and state laws regarding privacy and obligations of confidentiality.

Further, upon request, provide information on the current status of audit resolution in accordance with [Subsection 55.10.20 \(b\)](#).
9. Take corrective action on audit findings.
10. If acting as a pass-through entity, maintain a system of internal controls to monitor subrecipients.
11. Develop and submit cost allocation plans and indirect rate cost proposals in accordance with [Section 50.20](#).

50.30.50 Basis of accounting to use with federal assistance transactions

Jan. 1, 2015

The fund type of the account in which the federal assistance transactions are recorded determines the basis of accounting. Transactions for governmental fund type accounts are recorded using the modified accrual basis. Proprietary and trust fund type accounts use the accrual basis. Refer to [Subsection 80.30.20](#).

50.30.60 When to recognize federal assistance revenue

Jan. 1, 2015

Federal financial assistance revenue should be recorded using appropriate revenue source codes. Refer to [Subsection 95.10.30](#).

50.30.60.a Governmental Fund Type Accounts

Federal financial assistance is recognized as revenue in governmental fund type accounts in the accounting period when all eligibility requirements are met and it becomes susceptible to accrual, that is, both measurable and available (modified accrual basis). In applying this definition, carefully review legal, contractual, and accounting policy requirements for guidance.

- Entitlements are recorded as revenue at the time of receipt or earlier if the accrual criteria are met. Entitlements are restricted more in form than in substance. Generally, only a failure on the part of the recipient to comply with prescribed regulations will cause a forfeiture of the resources.
- Generally, revenue associated with expenditure driven assistance programs is recognized when the related expenditure is made. If cost sharing or matching requirements exist, revenue recognition depends upon compliance with these requirements.

Revenue associated with federal assistance awards for which the eligibility requirements are met but which is not available, should be recorded as Unavailable Revenue, GL codes 5192 or 5292, and, subsequently, recorded as revenue when the availability criteria is met.

50.30.60.b Proprietary and Trust Fund Type Accounts

Proprietary and Trust Fund Type Accounts. Federal assistance revenue received in proprietary and trust fund type accounts is recognized as revenue in the accounting period in which it is earned and becomes measurable (accrual basis).

50.30.60.c Unearned Revenue

Receipts from federal assistance awards received before the applicable revenue recognition criteria is met are to be recorded as Unearned Revenue, GL codes 5190 or 5290, and, subsequently, recorded as revenue when the revenue recognition criteria is met.

50.30.70 Use the Assistance Listing Number to record federal activity

June 1, 2022

50.30.70.a

Record federal assistance program revenues and expenditures by the unique [assistance listing number \(ALN\)](#) assigned to each federal financial assistance program. Agencies can utilize the ALN field

State Administrative and Accounting Manual

(currently labeled CFDA) in AFRS to track expenditures by ALN. This may also be accomplished by maintaining a crosswalk of federal programs to ALNs.

50.30.70.b

When assistance listing numbers are not provided in the federal grant contract and cannot reasonably be determined by other means, agencies should:

- In the absence of an ALN where the agency has a federal award number, the last three digits of the ALN should be zeros preceded by the federal agency code (i.e. XX.000), and the federal award number must be provided.
- In the absence of both an ALN and a federal award number, the last three digits of the ALN should be nines preceded by the federal agency code (i.e. XX.999).

Note: The XX.000 and XX.999 ALNs are temporary numbers which will be assigned a different number (i.e. XX.UXX or XX.RD) after Phase 2 close. If these numbers are used, an OFM accounting consultant will contact you with further instructions. Refer to general disclosure form instructions in [Section 95.20.10.b](#).

50.30.80 Accounting for federal expenditures

June 1, 2022

50.30.80.a Federal Expenditure

In appropriated accounts, federal expenditures should be recorded using federal expenditure authority codes. Each agency is responsible for maintaining a system for tracking federal expenditures by the unique assistance listing number assigned to each federal financial assistance program, as listed in [SAM.gov](#).

50.30.80.b Cost of Administering Nonfinancial Programs

When allowable by the federal assistance program, administration costs for nonfinancial federal programs are recorded as federal revenues and expenditures under the applicable assistance listing number and reported at year-end on the Federal Financial Assistance - Direct form in OFM's electronic disclosure form reporting system.

50.30.80.c Donated Inventory Programs

Agencies of the state of Washington receive federal nonfinancial assistance in the form of [donated inventories](#) (primarily food commodities and immunization supplies). Such assistance may be received directly from a federal agency or indirectly from another state agency.

Donated inventories are recorded as [consumable inventories](#) offset by unearned revenue in accordance with [Subsection 85.56.40](#). Except as noted below, as donated inventories are consumed/distributed, revenues and expenditures should be recognized using GL Codes 3225 "Revenue Adjustment/Elimination (GAAP)" and 6525 "Expenditure/Expense Adjustment/Elimination (GAAP)." State agencies must report

State Administrative and Accounting Manual

the fair value of inventory consumed/distributed during the year on the Nonfinancial Assistance form in OFM's electronic disclosure form reporting system.

Agencies distributing donated inventories to other governments, such as school districts, local health districts, and food banks, are to report the amount distributed in the pass through column on the Nonfinancial Assistance disclosure form.

Consistent with [Subsection 50.30.85](#), state agencies transferring federally provided inventories to other agencies are to report the revenue and expenditure. The agency actually using/distributing the commodities is to report the receipt of nonfinancial assistance as an expenditure recovery offsetting the associated nonfinancial expenditure/expense in its accounting records.

For food commodities, use the commodity list prepared by the Food and Nutrition Service of the U.S. Department of Agriculture to determine the fair value of the nonfinancial assistance.

50.30.80.d Federal Surplus Property

Do not record the value of federal surplus property received by a state agency or institution as revenue in the official state financial accounting records. Maintain the property in appropriate subsidiary ledgers for proper control of the assets. Report federal surplus property on the Nonfinancial Assistance form in OFM's electronic disclosure form reporting system under the applicable assistance listing number. It is to be valued at acquisition value if it is capitalized. If it is not capitalized, it is to be valued at its fair value at the time of receipt or the assessed value provided by the federal agency donating the property. As part of the year-end reporting process, the Surplus Property Program within the Department of Enterprise Services will provide each agency with a summary report of the value of federal surplus property received by that agency during the reporting year.

50.30.85 Accounting for federal assistance activity between state agencies

Jan. 1, 2015

Unless directed otherwise by federal law, regulation or federal awarding agency directive, record federal revenue and expenditure/expense activity between state agencies or institutions such that the activity is not duplicated either for accounting or reporting purposes.

State agencies involved in inter-agency federal assistance activity should use the following accounting procedures:

1. The originating state agency records and reports the federal revenue and a corresponding expenditure/expense using Object N "Grants, Benefits, and Client Services" for the amount paid to the subrecipient agency.
2. The subrecipient state agency records program expenditures offset by an interagency reimbursement (Object S) for the moneys received from the original agency. This results in no net revenue or expenditure/expense to the subrecipient agency.

50.30.90 **Accounting for federal assistance received from another nonfederal entity, other than another Washington State agency/institution (pass-through)**

Jan. 1, 2015

Record federal assistance received indirectly from another state (e.g. Oregon), local government, or private entity as federal pass-through revenue (Revenue Source Code 0546). There are additional year-end financial reporting requirements specific to federal pass-through revenue and expenditures found in [Subsection 95.20.70](#).

50.40.10 Purpose of the Cash Management Improvement Act

July 1, 2005

The Cash Management Improvement Act of 1990 (CMIA) provides rules and procedures for the efficient transfer of federal financial assistance between the federal agencies and the state. The implementing regulations are in [31 CFR Part 205](#). The general provisions of the Act are as follows:

1. Federal agencies must make timely fund transfers and grant awards to state agencies.
2. State agencies must minimize the time between the deposit of federal funds in the state's account and the disbursement of funds for program purposes.
3. With some exceptions, the state is entitled to interest from the federal government from the day the state pays out its own funds for federal assistance program purposes to the day federal funds are credited to the state bank account.
4. With some exceptions, the federal government is entitled to interest from the state from the day federal funds are credited to the state's account to the day the state pays out the federal funds for federal assistance program purposes.
5. The state must enter into a Treasury-State Agreement (TSA) with the U.S. Department of the Treasury, Financial Management Service (FMS) to set forth terms and conditions for implementing CMIA.

50.40.20 The Treasury-State Agreement defines the drawdown methods to be used by agencies

Nov. 15, 2000

The Office of Financial Management (OFM), with the assistance of all affected state agencies, negotiates the TSA with FMS. The TSA outlines by program, the [funding technique](#) and the [clearance pattern](#) the state will use to draw down funds from the federal government.

Generally, conformance with the TSA assures that the state does not owe the federal government, or is not due from the federal government, interest liability on its [drawdown](#).

Amendments to the TSA may be proposed by either the state or the federal government at any time during the duration of the contract.

50.40.30 Federal assistance programs and state agencies subject to the CMIA

July 1, 2016

The programs listed in the Assistance Listings are subject to CMIA regulations. Currently, programs with \$75 million or more in federal expenditures, as determined from the state's most recent Single Audit Report, are required to be covered under the TSA (CMIA agreement). The list of federal assistance programs impacted by CMIA may be revised annually, depending on the total amount of federal expenditures as reported in the state's Single Audit Report. State agencies that administer CMIA programs are subject to CMIA regulations.

50.40.40 Responsibilities of the Office of Financial Management

July 1, 2005

The responsibilities of the Office of Financial Management are to:

1. Annually identify the state agencies and federal assistance programs that will be considered as CMIA programs and notify affected state agencies.
2. Negotiate with FMS new agreements and amendments to the existing TSA (Refer to [Subsection 50.40.20](#)).
3. With the assistance of the Office of State Treasurer (OST) and affected state agencies, develop clearance patterns.
4. Prepare annual interest reports and direct cost claims for submittal to FMS (submitted in December each year for the previous state fiscal year).
5. Direct OST as to the payment of state interest liability and/or receipt of federal interest liability.
6. Certify, with affected agencies' concurrence, every five years that clearance patterns correspond to a program's clearance activities.

50.40.50 Responsibilities of agencies that administer CMIA programs

July 1, 2002

The responsibilities of the state agencies that administer CMIA programs are:

1. Request federal funds in accordance with the approved funding technique described in the TSA and in amounts needed for immediate payments.
2. Document the amount of federal funds requested and when federal funds are deposited in the state's account.

If federal funds are not available when required per the TSA, process the request which will document federal funds were properly requested by the state in accordance with the TSA.

- For the federal draw systems that reject requests when federal funds are not available in the system, make the request and print the rejection notice as evidence of the state's conformance with the TSA. If necessary, make appropriate phone calls to federal agencies to notify them that federal funds are not available per the TSA. Document efforts made to request federal funds per the TSA.
- When federal funds are not available per the TSA, maintain documentation of the amount of state funds expended, the dates of these expenditures, the date federal funds were requested, and the date federal funds were received. Maintain this documentation for use in calculating federal interest liability on late federal funds.

Note: In most cases, the state cannot calculate a federal interest liability unless the state has made a request through a federal draw system and had it rejected, or has notified the applicable federal agency that federal funds are not available per the TSA.

3. Calculate the state and federal interest liabilities (Refer to [Subsection 50.40.60](#)) by program and any associated direct costs (Refer to [Subsection 50.40.70](#)).
4. Notify OFM, Accounting Division, of changes to the funding techniques and clearance patterns. A state agency shall not make a change until it is reviewed and approved by OFM and FMS.
5. Certify to OFM that CMIA programs conform to the drawdown methods described in the TSA (Refer to [Subsection 50.40.20](#)). OFM requests this certification in December of each year.

50.40.60 How to calculate interest owed or due

July 1, 2005

In cases where interest is owed to the federal government or due from the federal government, under the TSA, agencies should calculate and document the interest owed or due. The interest rate to be used is the annualized rate equal to the average equivalent yield of 13-week Treasury Bills auctioned during the state's fiscal year. The interest rate is provided to the state by FMS. Agencies should ensure that interest calculations are auditable.

50.40.70 Interest calculation costs of implementing the TSA are reimbursable

July 1, 2003

Interest calculation costs related to implementing the TSA are reimbursable by the federal government and are claimed on the Annual Report of interest liabilities that is submitted by OFM to FMS in December each year. Interest calculation costs are those costs an agency incurs in performing the actual calculation of interest liabilities, including those costs an agency incurs in developing and maintaining clearance patterns in support of interest calculations. Costs associated with expenses for normal disbursing services, such as processing checks or maintaining records for accounting and reconciliation of cash accounts, or expenses for upgrading or modernizing accounting systems are not reimbursable. Agencies must maintain documentation to substantiate claims for interest calculation costs. Interest calculation costs in excess of \$50,000 are not eligible for reimbursement, unless the agency can justify that without incurring such costs, it would not be able to develop clearance patterns or calculate interest.

50.40.80 Responsibilities of agencies receiving federal funds, but not designated as CMIA programs

Nov. 15, 2000

The principal responsibilities of other state agencies receiving federal funds not designated as CMIA programs are:

1. Draw federal funds as close as possible to when the underlying disbursement is made by OST or the local bank.
2. Draw federal funds at the earliest date allowed by the federal program or regulations.
