There are approximately 2,400 local government entities, including counties, cities, schools, ports, public utilities, hospital districts, and fire districts. Auditors use a risk-based approach which focuses on public resources most likely to be at risk of loss or misappropriation. Beyond examining the financial condition, accounting and reporting by local governments, the audits assess compliance with the Constitution, state laws, and local government ordinances . Any report disclosing malfeasance, misfeasance or nonfeasance in office on the part of local government officers or employees is referred to the county prosecuting attorney or federal government for recovery of funds and prosecution. Bond rating agencies rely on these audit reports in performing their assessments. (Municipal Revolving Account - Nonappropriated)
