

## **350 - Supt of Public Instruction**

### **A002 Administration**

---

The Superintendent of Public Instruction is a statewide elected official charged with the constitutional responsibility of overseeing Washington's public school system. The state allocates over \$5 billion per year from state funds for the support of public education. The Office of the Superintendent of Public Instruction (OSPI) apportions the funds to school districts, administers state-funded programs, certifies teachers, collects school data, implements state education laws and programs, and performs other duties as required by the Legislature. In addition, OSPI administers more than \$600 million in federal funds per year and is accountable for Washington's implementation of federal requirements placed on state education agencies. The policy and administrative agency functions include the Superintendent's office, state policy and federal liaison offices, budget and fiscal services, communications, human resources, and agency support information technology services. **Expected Results**

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A003 Assessment**

Assessment provides all schools in Washington with tests to measure student achievement of basic academic requirements and more advanced skills. The division develops or selects and administers all state assessments and reports achievement data for individual students, schools, districts and the overall state. This information helps districts and schools refine instructional practices and focus curriculum. Tests administered statewide include the Washington Assessment of Student Learning (WASL), the Iowa Tests of Basic Skills (ITBS), and the Iowa Tests of Educational Development (ITED), and an alternative assessment for special education students. In addition, programs which focus on the federal requirements for demonstrating adequate performance for the federal No Child Left Behind Act are within this activity.

Beginning in 2002, increase the percentage of students meeting standard in reading on the WASL to meet adequate yearly progress (AYP).

**A004 Audit and Management Resolution**

This office acts as audit liaison between OSPI and state and federal agencies. It ensures that OSPI complies with state and federal audit requirements, resolves all audit findings, conducts limited scope federal audits of districts that spend less than \$300,000 of federal funds, and provides technical assistance to OSPI and school districts.

**Expected Results**

By 2004, reduce to zero the agency's exposure to audit issues from state and federal audits.

**A005 Bilingual Education**

State and federal laws require public schools to provide instructional assistance to students whose first language is not English. The purpose of bilingual, or language acquisition, education is to ensure that students receive grade-level instruction while they develop the English language skills needed to study at grade level in a regular English classroom. School districts provide transitional bilingual programs for approximately 80,000 students per year. The state bilingual program is defined as a basic education program. Federal programs also provide funding to meet the special needs of migrant children, including providing those students an opportunity to meet high academic standards, coordination of intra- and interstate migrant services, and encouraging family literacy. In addition, this activity provides for statewide technical assistance for school districts receiving federal grants related to bilingual and migrant educational programs.

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A006 Certification**

This division of OSPI oversees the activities of the Professional Education and Certification program as well as the Community Outreach program. Primary efforts are focused on developing professional educational policies to ensure that educators are prepared to help students meet high standards, processing applications for teaching and administrative certificates, advising constituents on certification requirements, and conducting focused outreach programs.

By 2006-2007, a successful professional development system will be in place to ensure that all student instruction is delivered by highly skilled, certificated educators.

**A007 Community Learning Centers**

The 21st Century Community Learning Center grants provide services before or after school, on weekends, or during school breaks. Services to students and their families are focused on academic achievement, and can include tutoring, recreation, arts, drug and alcohol prevention, and literacy services.

**A009 Curriculum and Instruction - State Coordination**

The OSPI Curriculum and Instruction Division works with the Assessment and Research Division to support curriculum, assessment, and instructional alignment in Washington schools. Technical assistance is provided to school districts and educational service districts (ESDs) regarding curriculum, program development, and research-based best practices/instructional strategies that support state K-12 learning goals. The division is responsible for developing the Essential Academic Learning Requirements (EALRs) and aligning them with the WASL test. The division coordinates with the regional ESDs to provide curricular documents relating to the EALRs.

**Statewide Strategy: Align curriculum, instruction and assessment**

**Expected Results**

By 2007, an integrated regional delivery system for school improvement will be in place that includes OSPI, educational service districts, school districts, higher education, and other regional partners.

**A010 Educational Service Districts**

Nine regional Educational Service Districts (ESDs) assist school districts in increasing student achievement, performing fiscal and data processing functions, and meeting state and federal requirements. ESDs play a key role in helping OSPI collect information that drives the apportionment of over \$5 billion per year to 296 school districts. State funding provides less than five percent of total ESD funding. The remainder of ESD funding comes from other specialized state and federal programs, and from contracts with school districts.

**A012 General Apportionment**

---

The Washington State Constitution requires the state to define and fully fund basic public education for all school-aged children. General apportionment funding, the state's largest basic education program, is provided to the state's 296 school districts through a complex formula based on the number of enrolled students (approximately 1 million), staffing ratios, average salaries, and other factors such as adjustments for very small districts. The state funding formula provides over 67,000 staff for basic education. The funds are allocated to, and spent by, the districts and their elected school boards. Approximately 69 percent of all district expenditures are for teaching, 13 percent for administration, 9 percent for school facilities and operations, and the remainder for pupil transportation and food services.

By 2007, develop and implement an improved K-12 education funding model, in partnership with the Legislature, school districts, and other educational partners.

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A013 Highly Capable Student Education**

The state funds school districts' programs of enriched instruction for highly capable or "gifted" students. Districts use a variety of methods to select and serve highly capable students. The Legislature provides funding for up to 2 percent of the student population or about 19,000 students.

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A014 Institutional Education**

The state provides basic education and necessary support services to school-aged children who reside in institutions such as county detention centers, group homes, institutions for neglected and delinquent children, residential rehabilitation centers, and state correctional facilities. There are a total of 38 institutions receiving these funds. Approximately 2,000 students are served annually in 220-day educational programs.

**Statewide Strategy: Give students individual attention**

**Expected Results**

Beginning in 2002, decrease the percentage of students who drop out of high school each year to meet adequate yearly progress (AYP).

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A015 K20 Network Technology Support**

This activity provides the technical assistance, training, scheduling, and technical support services essential for the effective and reliable functioning of the K-12 sector of the K-20 network. These services are provided on both a state and regional basis.

**Expected Results**

Develop and implement an agency-wide data warehouse system by June 2004.

**A016 Learning Assistance**

The state Learning Assistance Program and federal Title I funding provide instructional help to children whose academic performance is below average. Students receive assistance through one-on-one or small-group instruction, in addition to regular classes. State Learning Assistance funds for 2004-05 school year are allocated to districts based on a formula which includes district enrollment and factors to approximate student learning needs in the district. Federal Title I funding from the Elementary and Secondary Education Act (ESEA) is the largest federal program supporting K-12 educational services. Title I funds are provided based on a complicated funding formula, which targets funding to schools and districts with higher percentages of students in poverty. **Expected Results**

Each of Washington's diverse students demonstrates high levels of achievement in the four state learning goals and graduates from high school ready to implement a positive plan for his or her future.

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A017 Local Effort Assistance**

Statewide, school districts receive about 16 percent of their revenue from local voter-approved property tax levies. Since some school districts have lower property values than others, local school district levy rates vary. The lower the property values, the higher the levy rates tend to be. The state "equalizes" local funds by providing matching state funds for school districts with higher than average levy rates. School districts must pass a local maintenance and operations levy to be eligible for local effort assistance funds.

**A018 National Board for Professional Teaching Standards**

The certification process by the National Board for Professional Teaching Standards (NBPTS) requires an educator to demonstrate teaching practices that meet high and rigorous standards. Washington State supports this effort by providing bonuses for national board certified teachers. In addition, private foundations have contributed resources for assisting teachers with the fees and in preparing the materials required for the certification process.

OSPI administers professional development programs that are focused on developing professional educational policies and procedures to ensure that educators are best prepared to help students meet high standards. OSPI staff provide direct training through conferences and regional institutes. In addition, funding is provided to regional educational service districts, education associations, and directly to school districts for specific professional development activities. Programs included Teacher Mentor Assistance, Leadership Internships, Paraprofessional Training and OSPI's Summer Institutes.

**A023 Research**

The Research and Data Analysis unit provides a range of services related to education reform. Staff develop and maintain systems to ensure accurate and complete data are available for various state assessments, including the WASL. This unit conducts research and evaluations of state assessments and various education reform issues, including achievement gap, accountability, identifying low and high-performing schools, and dropouts. Staff prepare, publish and disseminate results of critical research to agency staff, state agencies, educators, and other external stakeholders through publications, conferences, and website materials.

OSPI administers grant programs targeted at improving student achievement in low performing schools. These programs provide technical assistance to school staff and, in some cases, support direct services to struggling students. The Reading Corps and Reading First programs are targeted at improving reading with assistance to struggling readers and staff development for educators. The Math Helping Corps program is a staff development model that places a math educator in a school for two years to assist educators in becoming better at teaching mathematics based on state standards. The federal Title I School Improvement funds and state Focused Assistance funds develop long-term capacity for improving student learning in a collaborative effort with participating districts, schools, and communities.

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A027 Special Education**

State and federal law requires Washington public schools to provide appropriate educational programs to over 120,000 students with disabilities. School districts and educational service districts use state and federal funds to provide supplemental services through the special education program. Schools employ over 12,000 full-time equivalent district staff in special education statewide. This program is defined as basic education. In addition, this activity provides for statewide technical assistance for school districts receiving federal grants related to special educational programs.

**Statewide Result Area: Improve student achievement in elementary, middle and high schools**

**Statewide Strategy: Give students individual attention**

**Expected Results**

Each of Washington's diverse students demonstrates high levels of achievement in the four state learning goals and graduates from high school ready to implement a positive plan for his or her future.

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A028 State Board of Education**

The State Board of Education is a separate state agency funded within OSPI's budget. Each member represents one of the state's congressional districts, and the Superintendent is the Board's chief executive officer. The State Board of Education is charged with allocating state school construction money, and setting and monitoring education policies, such as certification of teachers, high school graduation requirements, school accreditation, basic education program requirements, and other policies as required by law.

**Statewide Strategy: Provide general education support for students**

**Expected Results**

By 2007, develop and implement an improved K-12 education funding model, in partnership with the Legislature, school districts, and other educational partners.

Statewide and district-specific results from the Washington Assessment of Student Learning are included in the Washington Report Card (<http://reportcard.ospi.k12.wa.us/>).

**A031 Student Health**

OSPI provides statewide guidance on health issues to Washington state schools and students. Programs provide various levels of service, including ensuring that students have access to health care professionals at schools and the promotion of healthy decision making during early adulthood. In addition, statewide technical assistance for federal and state programs are included in this activity. Programs include the Nursing Corps and the Teen Aware Program.

**Expected Results**

By 2007, develop a statewide strategic children's health plan with schools, students, families, and state and community partners that addresses physical, social, and emotional barriers to learning and living healthfully.

**A032 Student Safety**

OSPI safety programs give local school districts access to skills and resources available to create and maintain a safe learning environment. The school safety center serves as a clearinghouse for information related to school safety, provides direct assistance to school districts on safety plans and other safety issues, and develops training programs. In addition, OSPI administers grants for nonviolence leadership training for students and school safety training for school staff.

All schools have developed and implemented a comprehensive safe schools plan by 2007.

**A033 Student Transportation**

Each school district electing to provide student transportation to and from school is entitled to state pupil transportation funding. The calculations for a district's pupil transportation allocation include adjustments for the number of students transported and distance weighting factors. The state does not include students within one radius mile in the general pupil transportation allocation. However, students in grades K-5 living within one radius mile, whether transported or not, generate additional funding which can be used to transport these students or to create safer walking conditions. The state also pays for the replacement of district school buses through a depreciation system. Schools transport over 480,000 students 90 million miles annually.
