*Construction projects in the queue: construction projects are not scored in the biennium for which they are requesting construction funds as they are assumed to be the highest priority of all the projects. All construction projects have been scored at the design phase in a prior biennium.

Legend:

P-C = Predesign through Construction

P-D = Predesign through Design

D-C = Design through Construction

In accordance with E2SHB 2483 Section 110(4), the following criteria, in the following order, were used to determine the project ranking:

- i. the project evaluation and scoring process pursuant to 43.88D RCW;
- ii. preserving assets;
- iii. degree production; and
- iv. maximizing efficient use of instructional space.

The ranking is not allowed to do the following:

- i. include subpriorities;
- ii. be organized by category;
- iii. assume any state bond or building account biennial funding level to prioritize the list; or
- iv. assume any specific share of projects by institution in the priority list.
