

# 406 - County Road Administration Board

## A001 Administration

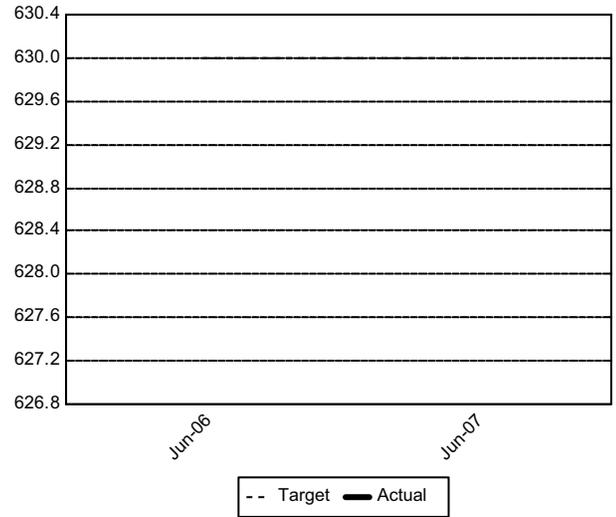

**Statewide Result Area:** Improve statewide mobility of people, goods, and services

**Statewide Strategy:** Improve mobility system quality and service

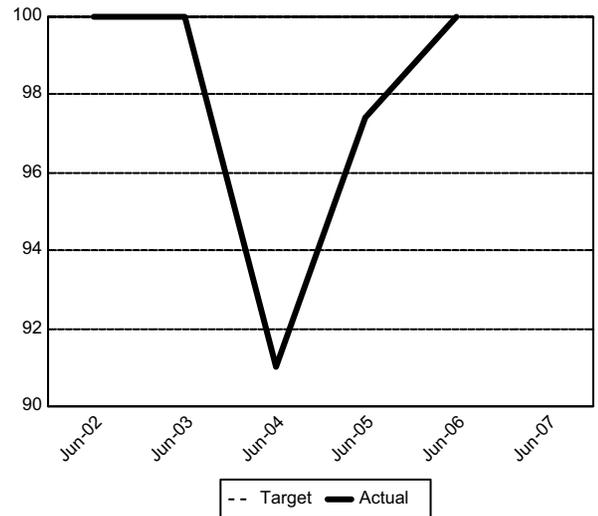

### Expected Results

The result of regulation, research, and oversight has been, and should continue to be, a centralized location of data from thirty-nine counties; an achieved economy of scale realized across thirty-nine road departments; accountability among the counties and from them to the Legislature and the public; credibility of reported data through centralized reporting; and effective, efficient, and professional administration of county road resources.

| Number of person-days of training attended by county personnel at CRAB provided sessions on County Engineer Duties, Engineering Design Systems (Eagle Point), and Transportation Management Systems (Mobility). |         |        |        |          |
|---|---------|--------|--------|----------|

## A002 Rural Arterial Program

**Statewide Result Area:** Improve statewide mobility of people, goods, and services

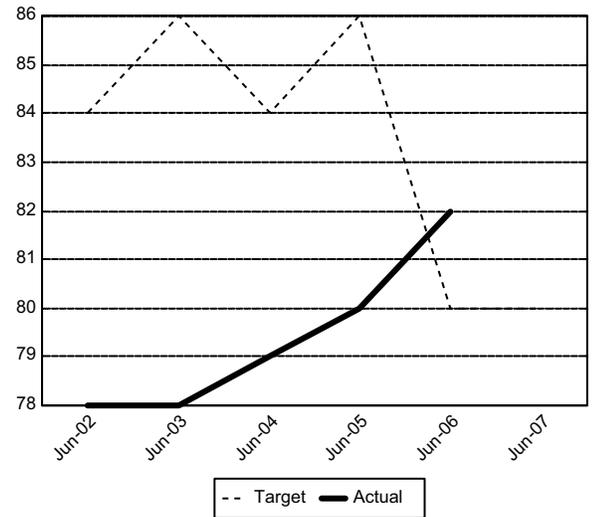

**Statewide Strategy:** Improve mobility system quality and service

### Expected Results

The Rural Arterial Program successfully targets freight and safety issues on a regional basis. Competition within regions should ensure that only priority projects are constructed. CRAB staff remain in close communication with each county to make sure the program continues to be both responsive to individual counties' needs and effective in dealing with county freight and safety issues.

| Statewide average arterial pavement structural condition (PSC).* |         |        |        |          |
|--|---------|--------|--------|----------|
| Biennium   | Period  | Target | Actual | Variance |
| 2005-07  | 8th Qtr | 80     |        |          |
|  | 4th Qtr | 80     | 82     | 2        |
| 2003-05  | 8th Qtr | 86     | 80     | (6)      |
|  | 4th Qtr | 84     | 79     | (5)      |
| 2001-03  | 8th Qtr | 86     | 78     | (8)      |
|  | 4th Qtr | 84     | 78     | (6)      |

*Pavement structural condition is a rating of paved roadway surface, based on the type and extent of defects inventoried. A rating of 0 equals totally failed pavement, while 100 equals brand-new pavement.*

## A003 Urban and Rural Arterial Road Preservation

**Statewide Result Area:** Improve statewide mobility of people, goods, and services

**Statewide Strategy:** Preserve and maintain state, regional and local transportation systems

### Expected Results

CAPA provides a regular and dedicated resource for the purpose of county arterial preservation. By calculating the distribution on the basis of a certified road log, the result should be an accurate and current assessment of individual county arterial preservation need, as well as an equitable distribution among the counties. The requirement of pavement management systems within each county continues to ensure that every county is a part of a statewide stewardship effort to maintain the existing infrastructure investment.
