A045 Washington Technology Center

Statewide Result Area: Improve the economic vitality of businesses and individuals
Statewide Strategy: Provide seed and growth capital and support entrepreneurs

Expected Results

Annual Report submitted to CTED.

A046 Energy - Contract Management/Pass Through

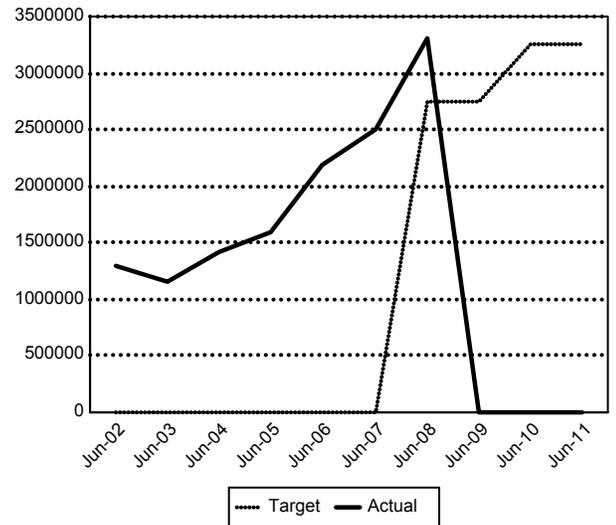

Statewide Result Area: Improve the economic vitality of businesses and individuals
Statewide Strategy: Regulate the economy to ensure fairness, security and efficiency

Expected Results

An increased level of economic activity or number of new jobs in the clean/smart energy sector. Funds are managed in full accordance with federal and state requirements. Reports are submitted on time and are complete. Contracted activities support state energy priorities. EPD increases the amount of non-General Fund-State funding to the state of Washington for energy activities.

Increase the amount of the state's electricity generated by non-hydroelectric renewable energy sources (total production in megawatt-hours of energy).

A049 State Energy Policy

Statewide Result Area: Improve the economic vitality of businesses and individuals
Statewide Strategy: Coordinate government efforts to improve the effectiveness of economic investments

Expected Results

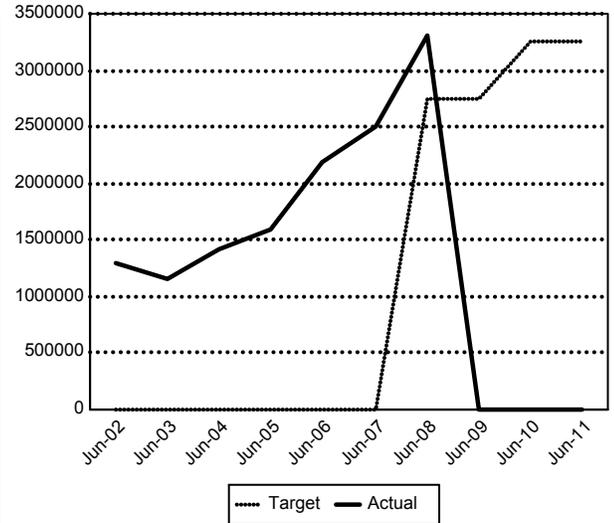

The state is fully informed of significant national and regional energy issues, and state policy positions are well articulated. The Governor, Legislature, and other state agencies have timely and relevant energy information available. State Energy Strategy (SES) policy directions are implemented. EPD produces statutorily required fuel mix disclosure and green power reports with input from stakeholders. State policy interests (affordable BPA rates, utility integrated resource planning, opposition to FERC standard market design, biofuels development, etc.) are fully represented in energy policy forums and deliberations. Work with the Washington Emergency Management Division, the energy industry, the Governor's Office, and the U.S. Department of Energy to gather and provide information, plan, and coordinate responses for energy emergencies and energy security.

As of 5/27/2009

8/22/08 Supplemental funds received in 2008 are not expected to increase the number of projects/beds created. They will increase investment per project since the new money can pay for costs that the 07-09 funds could not (i.e. building construction in addition to infrastructure). Assuming current funding levels and an increasing cost per project, we anticipate fewer beds in the 09-11 biennium.

Comment: Target includes count at funding, results will count placed in service (construction completed)
