

Cultural and Recreational Opportunities

Indicator 1: Increase Participation in Recreation and Cultural Activities

Measure c: Average Times Participating in Cultural and Recreational Activities during the Year

Description:

Data for this indicator are from the Washington State Population Survey, a random telephone survey of households in Washington State designed to be representative of all state residents. Approximately half of the survey respondents were asked about their participation in recreation and cultural activities during the previous 12 months.

Average Times Participating in Cultural and Recreational Activities during the Year (among all respondents)		
	2006	2008
