Indicator 1: Increase Participation in Recreation and Cultural Activities

Measure e: Fishing and Hunting License Customers by Fiscal Year

Description:

The Department of Fish and Wildlife issues fishing and hunting licenses for various fishing and hunting seasons each year. This series measures unique customers so as not to double-count those fishers or hunters who may have multiple licenses.

While there was a fall-off in fishing and hunting license customers from 2002 to 2005, the trend since 2005 has been positive.
