

Statewide Mobility

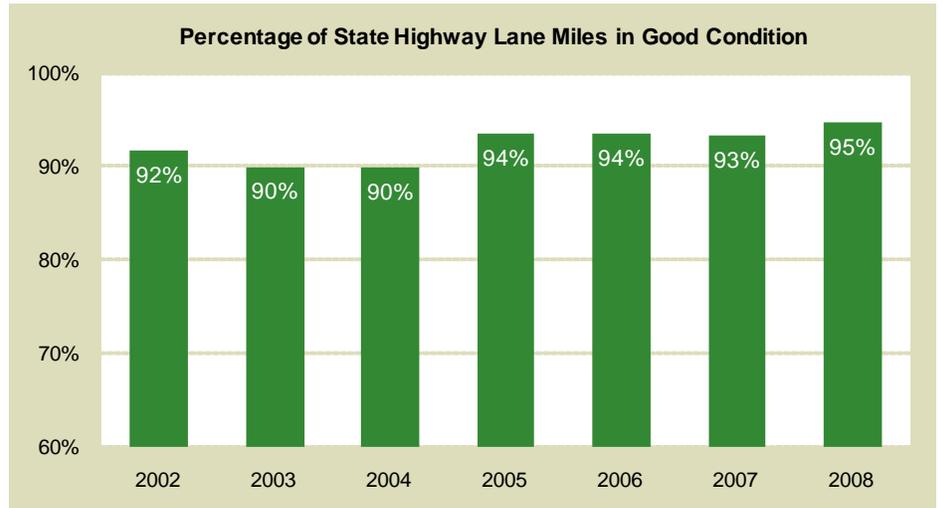

Indicator 7: Condition of Roads

Measure a: Percent of State Highway Lane Miles in Good Condition

Description:

Estimates are from the WSDOT Pavement Condition Survey. Pavement is classified as being in good condition if it is smooth and has few defects.

In 2008 the percentage of highway miles in good condition increased from 93% to 95%.

	Percent
2002	91.7%
2003	90.0%
2004	89.9%
2005	93.5%
2006	93.5%
2007	93.3%
2008	94.7%
