State of Washington
Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds
to the Statement of Activities

For the Fiscal Year Ended June 30, 2006
(expressed in thousands)

Net change in fund balances--total governmental funds	\$ 1,491,638
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	1,110,279
Bond proceeds provide current financial resources to governmental funds, however, issuing debt increases long-term liabilities in the statement of net assets. Also, repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(756,473)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported with governmental activities.	5,663
Because some revenues will not be collected for several months after the state's fiscal year end, they are not considered "available" revenues in the governmental funds. Deferred revenues decreased by this amount this year.	(519)
An extraordinary loss, as noted in the Capital Asset note (note 6) to the financial statements, is reported at the government wide level but not at the fund level.	84,248
Change in net assets of governmental activities	\$ 1,934,836

The notes to the financial statements are an integral part of this statement.
