My office will close on July 1st if no budget has been adopted. The biggest issue is that I will not be available to answer questions and be available for public disclosure requests. I receive at least 50 public disclosures a year. In addition to the contact information below, my personal cell phone number is (360) 491-1338.

A question came up today: If agencies do not meet any of the four exceptions in OFM's memo (attached), do they need to submit a response to OFM? The answer is yes, all agencies need to respond even if they are just confirming that they would cease operations on July 1st if there is no budget. You should also provide a contact person for your agency. I can send you a sample response if that would be helpful. Deadline is COB today. Feel free to call if you have questions.

Thanks all,

Cherie Berthon
