---

In planning for a potential shut down of the State of Washington the lottery respectfully submits that all operations of the Lottery would stop on July 1, 2013. This would include the stopping of all sales at our approximately 4000 retailers across the state. We would ask for consideration that either the Director or the Deputy Director would be allowed to come in the month of July to facilitate the multi-state draws by reporting the advanced sales that we have incurred and the reporting of any prizes won. At this point it would require one individual to come in two times a week for a couple of hours each time thru July 24. This would be strictly done as a volunteer base thereby not incurring any cost to the State of Washington and would be very beneficial to the Lottery on the restart of operations.

Please forward any questions to: Jim Warick Deputy Director, Washington's Lottery
