

Attachment G - Proposed Contract Revisions (Mandatory)

The following table must be used by the Bidder to submit proposed changes to the Standard Contract. Bidders must not submit their own contract or substantial exceptions to the Sample Contract terms, and must refer to Exhibit 1 – *Standard Contract* to complete this form. Proposed contract revisions must be limited to contract terminology for clarification and procedural purposes, and/or revisions based upon specific elements of Bidder’s proposed solution. OFM is not required to accept the requested changes. This information will not be evaluated or scored but will be used to help expedite contract negotiations with one or more Bidders to determine the Apparently Successful Bidder (ASB). If after negotiations OFM and a final scoring Bidder cannot agree to Contract terms within a timeframe that OFM solely determines, OFM may reject the bid and select an alternate final scoring Bidder as the ASB.

Bidder has no proposed changes to the Standard Contract (Exhibit 1)
