¹"Other Distillate Fuel" includes non-transportation and non-residential uses such as commercial and industrial space heating, manufacturing, refinery and pipeline fuel, and use by farms, mines, and construction.

²Liquid petroleum gas.

³"Other Petroleum Products" in Washington comprises 16 fuel and non-fuel products, including petroleum feedstocks and petrochemical feedstocks, waxes, refinery fuels, and petroleum coke. Petroleum coke used at refineries and smelters is the majority component.

British Thermal Unit (BTU): The quantity of heat required to raise the temperature of one pound of water by one degree Fahrenheit.
