

Monday, April 23, 2012

Dear Asotin County Elected Officials and Planning Director,

In accord with RCW43.62.035, OFM has developed the 2012 Growth Management Act (GMA) provisional population projections for county review. Note these county projections reflect Census 2010 information and include consideration of the current recession's effect on migration and fertility behavior, which impacts many counties' projections. The preliminary county projections (low, middle, and high series) are shown in the table below, along with a graph illustrating the projections and the historical population trend.

Year	Population (Low)	Population (Medium)	Population (High)
2010 (Census)		21,623	
2015	19,838	21,818	24,527
2020	19,800	22,033	26,155
2025	19,715	22,196	27,728
2030	19,588	22,313	29,252
2035	19,394	22,358	30,699
2040	19,158	22,356	32,097

In compliance with the Paper Reduction Act (RCW 70.95.725), the complete review packet will not be mailed; instead, the relevant documents -- methodology description, provisional projections, age pyramids, and other GMA projection related demographic data -- will be posted on the OFM website at <http://www.ofm.wa.gov/pop/gma/projections2012.asp>.

Please review this preliminary population projection. If you would like to comment or have any questions, please send them to pop.gma@ofm.wa.gov or contact me by phone 360-902-0592. The comment period for county GMA projections will end on **Friday, May 11, 2012**.

Yours Truly,

Yi Zhao, Washington State Chief Demographer
