

Monday, April 23, 2012

Dear Chelan County Elected Officials and Planning Director,

In accord with RCW43.62.035, OFM has developed the 2012 Growth Management Act (GMA) provisional population projections for county review. Note these county projections reflect Census 2010 information and include consideration of the current recession's effect on migration and fertility behavior, which impacts many counties' projections. The preliminary county projections (low, middle, and high series) are shown in the table below, along with a graph illustrating the projections and the historical population trend.

Year	Population (Low)	Population (Medium)	Population (High)
2010 (Census)		72,453	
2015	68,266	75,180	80,634
2020	70,499	78,586	88,524
2025	72,634	81,885	96,414
2030	74,396	84,778	104,304
2035	75,695	87,168	112,194
2040	76,706	89,246	120,084

In compliance with the Paper Reduction Act (RCW 70.95.725), the complete review packet will not be mailed; instead, the relevant documents -- methodology description, provisional projections, age pyramids, and other GMA projection related demographic data -- will be posted on the OFM website at <http://www.ofm.wa.gov/pop/gma/projections2012.asp>.

Please review this preliminary population projection. If you would like to comment or have any questions, please send them to pop.gma@ofm.wa.gov or contact me by phone 360-902-0592. The comment period for county GMA projections will end on **Friday, May 11, 2012**.

Yours Truly,

Yi Zhao, Washington State Chief Demographer
