

Monday, April 23, 2012

Dear Kittitas County Elected Officials and Planning Director,

In accord with RCW43.62.035, OFM has developed the 2012 Growth Management Act (GMA) provisional population projections for county review. Note these county projections reflect Census 2010 information and include consideration of the current recession's effect on migration and fertility behavior, which impacts many counties' projections. The preliminary county projections (low, middle, and high series) are shown in the table below, along with a graph illustrating the projections and the historical population trend.

Year	Population (Low)	Population (Medium)	Population (High)
2010 (Census)		40,915	
2015	40,036	42,592	47,759
2020	40,631	45,255	52,395
2025	41,226	47,949	57,065
2030	41,821	50,567	61,652
2035	42,416	53,032	66,075
2040	43,011	55,436	70,431

In compliance with the Paper Reduction Act (RCW 70.95.725), the complete review packet will not be mailed; instead, the relevant documents -- methodology description, provisional projections, age pyramids, and other GMA projection related demographic data -- will be posted on the OFM website at <http://www.ofm.wa.gov/pop/gma/projections2012.asp>.

Please review this preliminary population projection. If you would like to comment or have any questions, please send them to pop.gma@ofm.wa.gov or contact me by phone 360-902-0592. The comment period for county GMA projections will end on **Friday, May 11, 2012**.

Yours Truly,

Yi Zhao, Washington State Chief Demographer
