

Monday, April 23, 2012

Dear Spokane County Elected Officials and Planning Director,

In accord with RCW43.62.035, OFM has developed the 2012 Growth Management Act (GMA) provisional population projections for county review. Note these county projections reflect Census 2010 information and include consideration of the current recession's effect on migration and fertility behavior, which impacts many counties' projections. The preliminary county projections (low, middle, and high series) are shown in the table below, along with a graph illustrating the projections and the historical population trend.

Year	Population (Low)	Population (Medium)	Population (High)
2010 (Census)		471,221	
2015	450,827	489,491	548,980
2020	464,485	513,910	595,683
2025	477,297	537,428	641,412
2030	487,917	558,614	684,623
2035	495,682	576,763	724,554
2040	501,621	592,969	762,387

In compliance with the Paper Reduction Act (RCW 70.95.725), the complete review packet will not be mailed; instead, the relevant documents -- methodology description, provisional projections, age pyramids, and other GMA projection related demographic data -- will be posted on the OFM website at <http://www.ofm.wa.gov/pop/gma/projections2012.asp>.

Please review this preliminary population projection. If you would like to comment or have any questions, please send them to pop.gma@ofm.wa.gov or contact me by phone 360-902-0592. The comment period for county GMA projections will end on **Friday, May 11, 2012**.

Yours Truly,

Yi Zhao, Washington State Chief Demographer
