

Admission Possible-College Access Now

Admission Possible is a nonprofit organization dedicated to making college admission and success possible for low-income students through an intensive curriculum of coaching and support. The program serves high school juniors and seniors to help them prepare for and earn admission to college, and supports them as they progress through college. Nationwide, Admission Possible has seen 98% of its more than 3,000 program graduates earn admission to college; 93% of them have enrolled, and to date, nearly 80% persist in college or have already graduated.

AmeriCorps members serve students through the Seattle-based program, College Access Now. Members work with students to help them address the academic, financial, informational, and social-emotional barriers that stop low-income students from accessing college and achieving success once there. More than 379 students have completed this program in Seattle, and 100% of those students have earned admission to college.

Counties Served: King

Number of Members: 4 AmeriCorps Members
