

Disability Navigator Project (A Partner of the Washington Service Corps)

The Disability Navigator project is a collaborative partnership between Washington Service Corps and the Governor's Committee on Disability Issues and Employment. The project aims to develop, sustain and improve access, services and outcomes for people with disabilities within Washington's WorkSource system. WorkSource is a network of organizations and "one-stop" Career Centers that offer a variety of services to businesses and job seekers.

Washington Service Corps (WSC) Disability Navigator Project will place nine AmeriCorps*VISTA members to serve as resources assisting WorkSource staff and partners to improve the access, services and outcomes that WorkSource Centers and Affiliates provide for job seekers who have disabilities.
