

## **New Alliance Counseling Services (A Partner of the Washington Service Corps)**

The primary county served is Ferry County that encompasses 2,313 square miles and is the ninth largest county in Washington State. It extends from the international boundary with Canada on the north, the Columbia River on the south, and to the Columbia and Kettle Rivers on the east, and Okanogan County on the west. Members serving with the Ferry County team have the option of serving in education, human needs or the environment, where they learn the true meaning of teamwork and friendship. Whether you choose tutoring a student, providing parenting classes, or clearing trails, you will be surrounded by the rugged beauty Ferry County provides. You will find the people warm and welcoming and the wildlife and scenery spectacular. Along with the beauty, there is a great deal of poverty and many unmet needs. If you want a truly extraordinary service experience, Ferry County is waiting for you.

**Counties Served:** Ferry  
Stevens  
Okanogan

**Number of Members:** 18 AmeriCorps Members
