Employed	73.4	72.9	-0.4
Unemployed	4.6	4.9	0.3
Not In the Labor Force	22.0	22.1	0.1

1. The estimate for the currently insured in the old column used the maawgt2 variable to weight the data. All other estimates in the old column used the fnlwgt variable to weight the data.

2. Estimates in the "New" column used the pwgt00 variable to weight the data unless it is a household level estimate where hwgt00 was used.
