This bill also sets a \$15 fee for a studded tire permit, and a \$5 studded tire permit service fee if the permit is obtained separately from the annual registration renewal.

Data on the utilization of studded tires in Washington State is ten to fifteen years old and not sufficiently reliable upon which to base an estimate.

However, for illustrative purposes, assuming that studded tire permits would be purchased for approximately 350,000 vehicles, approximately \$5.2 million per year could be paid for studded tire permits.
