OFM RESPONSE TO BIDDER QUESTIONS

October 30, 2018

This Addendum No. 1 provides OFM answers to Bidder's questions which may only explain or clarify some aspect that has already been addressed in the solicitation. However, some of the answers may also supplement or change what was previously states in the Solicitation or in an exhibit or attachment.

Therefore, it is important that Bidders review all questions and answers, and not just those which they may have submitted.

Question 1: Peninsula College - Ft Warden – The address contained in the RFQ for this location is 202 Eisenhower Ave, Port Townsend. The existing 100Mb service is terminated at a location 0.1 miles away. Would it be possible to provide service at the existing service address of 298 Battery way, Port Townsend? This would save potential construction costs into a new location.

Answer: No - we do not believe the existing service is located at 298 Battery and that it is actually located at 200 Admin Building. However, the requester for this connection is not the owner of the space, cannot guarantee access, and would prefer to not have the service terminate at that location anymore. Due to this, we would like to keep the address originally requested as 202 Eisenhower.
