

Census 2020 Redistricting Data [P.L. 94-171] for Washington, Readme
Washington State Office of Financial Management, Forecasting and Research Division

Introduction

The tables included herein have been created from the U.S. Census Bureau 2020 Redistricting Data Summary File, also known as the Public Law 94-171 file, for Washington state. The redistricting data contains basic race and ethnicity counts for both the total population and the population over 18 years old. This year it also contains counts of persons in group quarters by type. Information on total, occupied and vacant housing units is provided, along with information on population density and rank, where appropriate.

Census 2020 redistricting data and map products can be accessed from a variety of locations. You may wish to verify whether your regional or local government has put together summary tables that more closely target your specific area of interest or provide additional information not presented here.
