Receivable Lease - Tenant Agency Data Overview

Receivable leases are created in FPMT by the master lease holder or owning agency. While this process covers the majority of lease data, the tenant agency is responsible for populating some fields in FPMT and reviewing the overall record for accuracy.

- There are a handful of fields in the Receivable Leased Facility table, such as an assigned regional name or number, that are more applicable to larger agencies. These fields may be populated by the tenant agency, but they are not required.
- Tenant agencies are required to validate that the following fields in the Receivable Leased Facility table are properly populated:
  - The Lessee field should reflect the tenant agency, not the lessor.
  - The Six-Year Facilities Plan field should be marked “yes.”
- Tenant agencies are required to validate that the following fields in the Receivable Leased Facility table are properly populated:
  - Receivable Lease Square Feet
  - Costs, such as electric, garbage, janitorial etc., are accurately reflected.
- Tenant agencies are required to validate that the following field in the Receivable Lease Payment table is properly populated:
  - Payment Amount
- Tenant agencies are also required to enter workstation and occupancy data in the Space table.
- If you need to create a new FPMT account, please refer to the Getting Started job aid.
- For instructions on how to reset your password, please refer to the Password Reset job aid.
- For help with FPMT, please contact the OFM Help Desk at HereToHelp@ofm.wa.gov or (360) 407-9100.
- For questions about the Facilities Inventory or Six-Year Facilities Plan processes, please contact OFM Facilities Planning via ofmfacilitiesoversiq@ofm.wa.gov.
