How to Release to OFM

WHAT IS TALS?

Required tool for submitting allotments

Supports the allotment development, management, review, reporting and monitoring needs for state agencies, the Legislature, the Office of Financial Management (OFM), and the public

Includes electronic submittal to OFM

Allows for quarterly allotment adjustments

Allows for internal adjustments

HIGH LEVEL FLOW OF TALS

WHAT ARE ALLOTMENTS?

Allotments are a detailed plan of expenditures authorized in the budget, the assumed revenue estimates, and the related FTE estimates required by law (RCW 43.88.110).

Agencies, OFM, the Legislature, and the public monitor an agency's actual spending and revenue against its allotments.

Helps prevent over-expenditure and improves the assumptions upon which budgets, spending plans, and other financial decisions are based.

Allotments support good financial management.

Allotment Instructions:

- <https://www.ofm.wa.gov/budget/budget-instructions/allotment-instructions>

WHAT ARE ALLOTMENTS?

Allotments must:

- Conform to the terms, limits, or conditions of legislative appropriations
- Reflect the priorities of the agency's strategic plan, the implementation of those strategies, and the achievement of performance targets
- Serve as the agency's best estimate of how its authorized expenditures will be spent and the revenue it will earn each month of the biennium

Allotments and allotment controls help ensure that:

- Appropriations are used only for purposes that meet legislative intent
- Sufficient funding exists to allow the state to incur financial obligations
- Changes in the original budget assumptions are communicated and understood

WEB BROWSER REQUIREMENTS

TALS is part of the BudgetWorks suite and requires Internet Explorer running in “Compatibility View” mode.

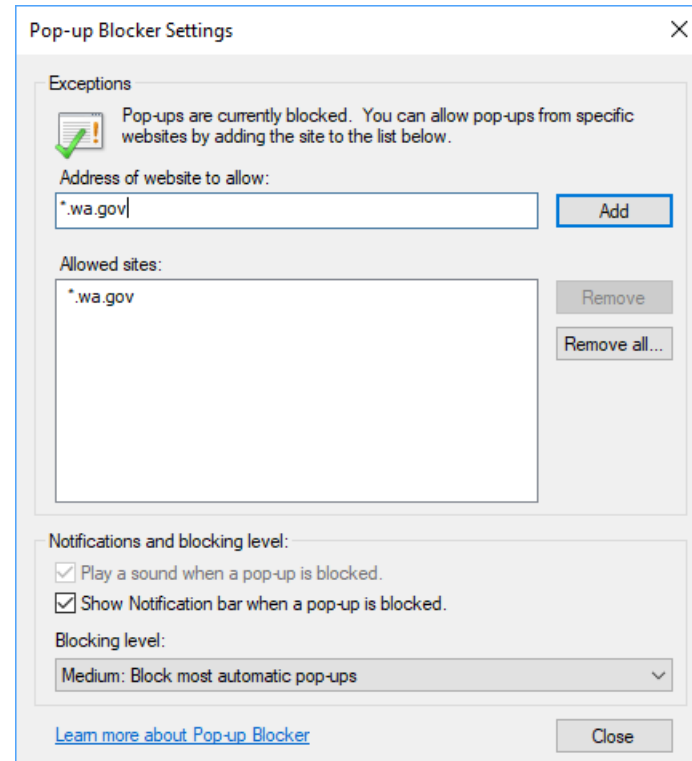

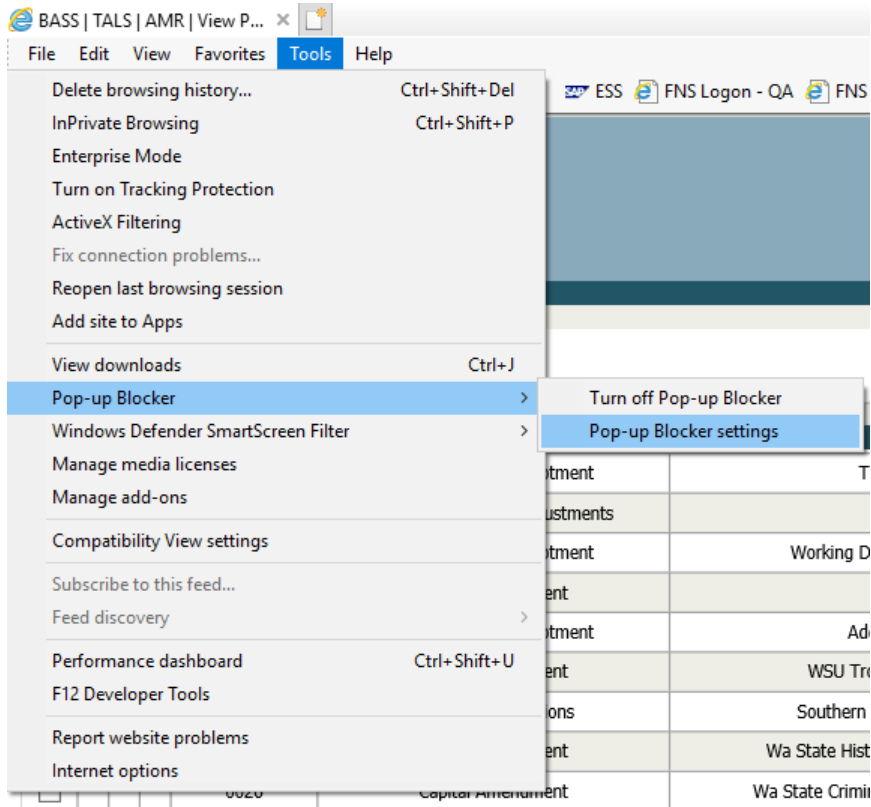

How to enable Compatibility View:

1. Select Tools from the menu.
2. Select Compatibility View settings.
3. Enter ofm.wa.gov in the Add this website: field.
4. Select Add and then you may Close this window.

NOTE: If you are unable to add the website, please contact your IT staff.

Using other browsers or not using compatibility view may result in the compromise of TALS features and is not recommended or supported.

HOW TO NAVIGATE WITHIN TALS

On the View Packet List Tab you will see the following tabs that you will use when creating your allotments:

PACKET PURPOSE TYPES

There are different Packet Purpose Types that agencies can use to indicate the allotment purpose

OFM and the Legislature need to view the allotments by purpose type

The OFM instructions will direct you as to which packet purpose type you must use during different times of the year

PACKET PURPOSE TYPES

Available Purpose Types

- Initial Allotment (Operating or Capital)
- Operating 2nd Quarter Adjustments through 8th Quarter Adjustments
- Revenue and Cash Adjustments
- Capital Amendment (Add Project to description)
- Capital Transfer
- Operating Allocations (Example: for Savings Incentive Account and Parking Revenues Account)

PACKET PURPOSE TYPES

Available Purpose Types (continued)

- 1st Supplemental (Operating or Capital)
- 2nd Supplemental (Operating or Capital)
- Legislative Allotment Reduction (Operating or Capital)
- Governor's Cash Deficit Reductions (Operating or Capital)
- Unanticipated Receipts (Operating or Capital)
- Internal Adjustments (Operating or Capital)

WHAT TYPES OF ALLOTMENTS CAN BE USED INTO TALS?

Initial Allotments (Operating or Capital)

- Are a detailed plan of expenditures, revenue, cash receipts and disbursements:
 - Authorized by the enacted budget
 - Monitoring of agency's actuals to allotments
 - Conform to conditions of legislative appropriations
 - Provide monthly best estimate of agency's expected cash flow
 - Requires OFM approval

WHAT TYPES OF ALLOTMENTS CAN BE USED INTO TALS?

1st and 2nd Supplemental Allotments (Operating or Capital)

- Funding adjustments during the 1st and 2nd year of a biennium:
 - Authorized by the enacted budget
 - Monitoring of agency's actuals to allotments
 - Conform to conditions of legislative appropriations
 - Provide monthly best estimate of agency's expected cash flow
 - Requires OFM approval

WHAT TYPES OF ALLOTMENTS CAN BE USED INTO TALS?

Operating Quarterly Adjustments

- Agencies can revise their detailed plan of expenditures, revenue, cash receipts and disbursements throughout the biennium
 - There are 7 quarterly adjustment time periods
 - Monitoring of agency's actuals to allotments
 - Correct monthly estimates of agency's expected cash flow
 - Due to OFM on the 25th of the month preceding the quarter
 - Requires OFM approval

WHAT TYPES OF ALLOTMENTS CAN BE USED INTO TALS?

Internal Adjustments (Operating or Capital)

- Agencies can revise their detailed plan of expenditures, revenue, cash receipts and disbursements throughout the biennium for internal monitoring
 - Monitoring of agency's actuals to allotments
 - Correct monthly estimate of agency's expected cash flow
 - Does not require OFM approval
 - Must equal zero (0)

DEMONSTRATION

CREATING A PACKET

Follow along on the instructor's PC

OFM

OFFICE OF FINANCIAL MANAGEMENT

REQUIRED AND OPTIONAL ELEMENTS

Field	Required	Description	Comments
Biennium	Yes		Not editable after save
Purpose	Yes	Purpose or type of allotment	Not editable after save
Program	No*	Used to identify and sort allotment packets that contain allotment detail for one program *Required for DSHS	There is no system edit between the Program field selection and the allotment detail included in the packet
Title	No	Identify and describe the allotment packet data. Visible on the View Packets List screen.	Editable when packet is in a Draft or returned status.
Packet Explanation	*	Communicates to OFM the key assumptions and decisions in the allotment packet data.	*Not required to save the packet but the OFM allotment instructions do require agencies to submit explanations in certain cases.
Agency Internal Comment	No	Documents agency decisions and assumptions	Visible only to the agency
Primary Contact	Yes	Defaults to the name, email address and phone number of the person who created the packet	
Secondary Contacts	No	Add additional contact information for the packet	
Attachments	No		Word, Excel & PDF documents only
Lock Packet	No	Once saved a lock will appear to the left of packet number and the Lock Packet title will change to Unlock Packet. To unlock, simply click on the Unlock packet selection box and save again. This function can also be performed from the View Packet List Screen by choosing the Set Locks option.	Users with Budget Operations Security can lock packets.
Packet Number	Auto	Packet Number is automatically generated by the application Will show unassigned until saved	Number appears after the Save action has been completed
Status	Auto	Will remain in Draft status until the packet has been released for review by an OFM budget analyst for official packets or submitted for posting to AFRS for internal packets.	

EXERCISE #2

CREATING A PACKET

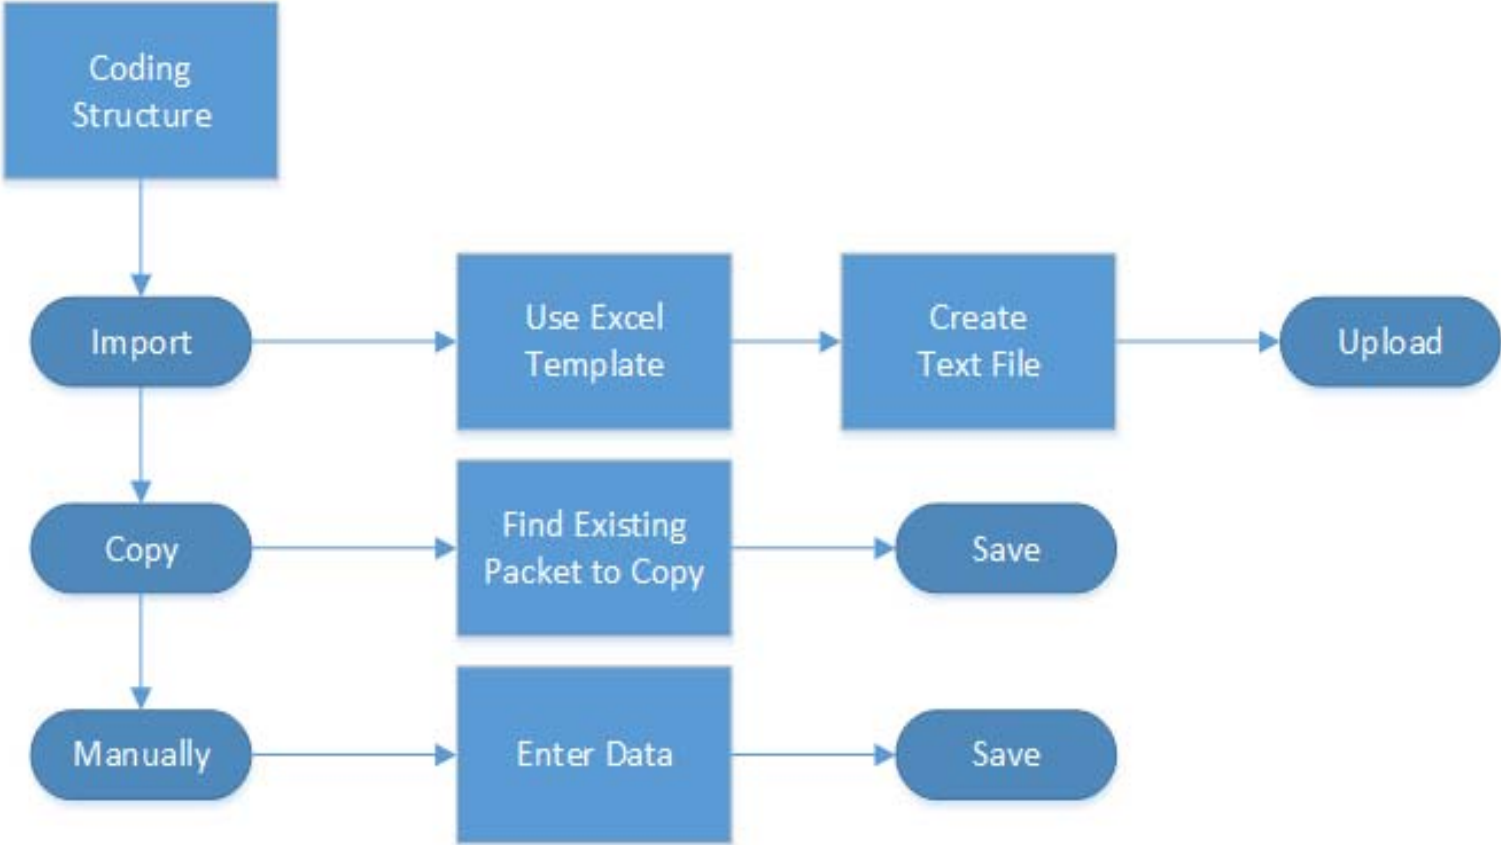

Follow the printed instructions to
complete the exercise

OFM

OFFICE OF FINANCIAL MANAGEMENT

CODING STRUCTURE FLOW

CODING STRUCTURE

Coding structure within TALS comes from the Statewide Titles database and is loaded on a nightly basis

Updates to tables within AFRS are near real time

New Biennium Coding is available within TALS after the following events:

- AFRS Table Roll at the End of the Biennium
- Budgets are passed by the Legislature

NOTE: You cannot add allotments for closed fiscal months

CODING STRUCTURE INTO PACKETS

Import process identifies the Allotment Type Code that corresponds with the tabs within TALS. They are:

- EXP = Expenditure
- REV = Revenue
- CAD = Cash Disbursement
- CAR = Cash Receipt
- FTE = Full Time Equivalent
- RES = Reserve
- UNA = Unallotted

NOTE: These designations are required when using the Import process.

CODING STRUCTURE

Fields that are required for specific Allotment Types:

- Allotment Type (Import Only) = All allotment types
- Program Index = EXP, FTE, RES, UNA
- EA index code = EXP, RES, UNA
- Account code = FTE, REV, CAD, CAR
- Object Code = EXP
- Major Source Code = REV
- Source Code = REV

OPTION 1 VS. OPTION 2

There are minor differences in how Option 1 agencies vs Option 2 agencies enter their allotments and view them in the application

- Option 1 agencies enter objects and expenditure authority indexes as separate entries
- Option 2 agencies enters both at the same time

EXERCISE #3

WHAT OPTION AM I?

Follow the printed instructions to
complete the exercise

OFM

OFFICE OF FINANCIAL MANAGEMENT

CODING STRUCTURE INTO PACKETS

Manually

- Add coding structure individually to each of the following Tabs:
 - Expenditure
 - Cash Disbursements
 - Cash Receipts
 - Revenue
- Reference the Import Specification Document (Appendix 3) as needed

EXERCISE #4

ADDING DATA TO A PACKET

Follow the printed instructions to
complete the exercise

OFM

OFFICE OF FINANCIAL MANAGEMENT

CODING STRUCTURE INTO PACKETS

Copy

- Find a packet that has the majority of coding structure that you want to use and copy into an empty or draft packet
- Select the information that you want to Copy
 - Include – Allotted Expenditures, Unallotted, Cash Disbursements, Revenue, Staff Months (FTEs), Reserves, Cash Receipts
 - Detail Options – Include Details, Include details reverse signs, Include details – zero amounts or Do Not Include details

CODING STRUCTURE INTO PACKETS

Copy

- Select the information that you want to Copy continued
 - What Action to Take
 - Merge/Sum Amounts Together for Duplicates
 - Delete Original/Replace
 - To Packet – Used to designate where you want the data to be copied to.
 - Biennium (Defaults to current & Required)
 - Packet Purpose (Optional)
 - Packet (Required)

COPY/MERGE

Packet data is incremental

You may want to copy the entire packet or part of it

Can be useful when you're taking internal packet data and putting it into a quarterly adjustment

You might need a packet to reverse a previous internal allotment packet

COPY/MERGE

Copy from Packet 0034

Include

- Allotted Expenditures
- Unallotted
- Cash Disbursements
- Revenue
- Staff Months (FTEs)
- Reserves
- Cash Receipts

Detail Options: ▼

Merge / Sum Amounts Together for Duplicates

Delete Original / Replace

To Packet...

Biennium: ▼

Packet Purpose: ▼

Packet: ▼

CODING STRUCTURE INTO PACKETS

Import

- Get the template from the System Tutorials link from the BudgetWorks login page or from the Import dialog box link
 - The template is a tab-delimited text file
- Agencies can use Enterprise Reporting data from the prior year to see spending patterns
 - If coding hasn't changed, you can copy the coding structure directly to the template

DEMONSTRATION

IMPORT/ EXPORT

Follow along on the instructor's PC

OFM

OFFICE OF FINANCIAL MANAGEMENT

EXERCISE #5

IMPORT/ EXPORT

Follow the printed instructions to
complete the exercise

OFM

OFFICE OF FINANCIAL MANAGEMENT

ONLINE VIEWS

Online Views provide a dynamic tool to view allotment data across one or multiple allotment packets

Data is sorted, filtered and viewed on up to 4 levels

Online Views are not intended for printing, however, they can be exported by clicking Export Data (in XML format)

- For optimal printing of allotment data, use the AMR reports through Enterprise Reporting

Online Views behave differently depending on the Option of your agency

DEMONSTRATION

REPORTS

Reports are available in TALS or in the Enterprise Reporting (ER) Portal

- The reports that are available within TALS have defaults set for them that cannot be changed
- The reports that are available within the ER Portal can be modified to be more specific

REPORTS

Common reports that are used:

- AMR008; “Allotment vs EA Schedule”
 - This report is used to identify variances between the allotment data and the expenditure authority schedule control number
 - This report is primarily used during the preparation and review of allotments
 - In TALS-AMR you have two different AMR-008
 - AMR008-A; “Allotment vs EA Schedule (This packet only)”
 - AMR008-B; “Allotment vs EA Schedule (All packets)”

REPORTS - AMR008-A

TALS TUTORIALS

The screenshot shows the Washington BudgetWorks website. At the top left is the logo for the Office of Financial Management, featuring a portrait of George Washington and the text "OFFICE OF THE STATE OF WASHINGTON" and "1793 WASHINGTON". To the right of the logo is the text "Office of Financial Management" and "BudgetWorks". In the top right corner, there are three links: "Request Access", "Contact", and "Help".

The main content area has a background image of a US dollar bill. On the left, there is a heading "Welcome to Washington BudgetWorks" followed by a paragraph: "BudgetWorks is the agency portal to access systems and resources to support budgetary functions for the State of Washington. Agency information is used by OFM to perform ongoing planning, analysis, and implementation of the state's operating and capital budgets."

On the right side, there is a "System Login" form. It includes a "Login ID" field, a "Password" field, and "Login" and "Reset" buttons. Below the form is a link: "Forgot your Login ID or Password?".

At the bottom, there are three columns of navigation links:

- Access** (with a thumbs-up icon):
 - [Forgot your Login ID or Password?](#)
 - [Need to change your Password?](#)
 - [Security Request Form](#)
 - [System Support](#)
- More Info** (with an information icon):
 - [System Tutorials](#)
 - [Budget Instructions](#)
 - [Budget Staff Agency Assignments](#)
 - [Budget Forms](#)
- Stay Connected** (with a hand icon):
 - [Subscribe to Budget Email List](#)
 - [Budget & Accounting Dates of Interest](#)
 - [One Washington Portal Page](#)
 - [Publications and Reports](#)

At the bottom right, there is a footer: "Privacy Notice | OFM Website | © 2018 - OFM".

STAYING INFORMED

To get copies of the latest system documentation:

- <https://www.ofm.wa.gov/it-systems>

Select TALS from the list, and look under Reference Materials.

BudgetWorks main application page provides access to the login page, security form, tutorials, password changes, and announcements

- <https://budgetlogon.ofm.wa.gov/Logon.aspx>

Sign up for TALS GovDelivery:
