

About the due diligence process to choose the enterprise SaaS solution

(Fall 2019 to Summer 2020)

OneWa has entered into a due diligence process to select the enterprise software as a service solution for finance, budget, procurement and HR/payroll.

PROTECTING THE STATE'S INTERESTS

To ensure Washington's unique and critical business needs are appropriately considered in the selection of a new solution, we've worked with stakeholders to refine and validate business use cases and requirements. And, we've developed a framework to ensure the state's interests are managed in the selection process. The combination of these two efforts and the timeline on which they flow are what we're calling the due diligence process.

To ensure appropriate deliberation and fairness, the due diligence process is

CONFIDENTIAL

In July 2019 the executive steering committee approved use of the [NASPO Value Point](#) Cloud Services contract made available through the Department of Enterprise Services as a master contract.

Questions specifically related to the confidential process should be directed to:
